Getting Here

Jackson Hole is a remote mountain valley tucked between five mountain ranges in northwest Wyoming. There are four main roads that will get you into the area with all but the southerly route requiring a trip over one or more high mountain passes. You can also fly into the Jackson Hole airport, the only commercial airport inside a national park. Direct flights can be found from several major cities depending on season and carrier but most tickets will require at least one stop along the way.

We hope you enjoy our vacation planner and most importantly that you have a great vacation to Jackson Hole.

Where To Stay

Jackson Hole is home to countless hotels, motels, luxury lodges and bed and breakfasts that will provide you with safe, comfortable and often luxurious base for your adventures in the greater Yellowstone area. Before you consider what property is best for your vacation it is important to understand the basics of the geography of Jackson Hole. First and foremost, Jackson Hole is a huge valley in Northwest Wyoming named after an early settler and trapper, Davey Jackson. Within Jackson Hole you will find the town of Jackson, Wilson, Moose, Kelly, Moran and a large portion of Grand Teton National Park. We have included the location of each location and subdivided them into three sections according to geography.

Below is a list of our favorite place to stay based on our personal experience and feedback from our clients over the years (Hotels not listed below may be as good or better – we just don't have enough feedback to include them on our list) Our recommendations for you depends on two factors; your budget and where in Jackson Hole you want to be. The two main choices are between the town of Jackson and Teton Village 15 minutes outside of town at the base of Jackson Hole Mountain Resort. There are also some amazing places both north and south of Jackson that include dude ranches, park hotels and rental houses. Below we will offer suggestions by area and budget. Rates at all properties are highly seasonal and will vary significantly depending on when you are planning to visit. \$ Budget lodging, \$\$ Mid-level lodging, \$\$\$ Premium lodging.

Where to eat

The valley of Jackson Hole is home to around 20,000 people but, with over 4 million visitors a year, has enough restaurants to satisfy a mid-sized city. The variety is amazing given that you are saddling up for a meal in a remote cowboy town in NW Wyoming. Do you want Thai, Sushi, Mexican, Chinese, Japanese, Austrian, Italian or just plain old American? Once you know what you want, which usually takes your typical Jackson Hole local about an hour of back and forth negotiations to figure out, then you hope it's not Friday night or July 4th! The prices for dinner can vary from about \$10.00-\$100.00 per person so each of our recommendations will include 1-3 dollar symbols to give you an idea of cost. \$ is under \$10.00, \$\$ is under \$30.00 and \$\$\$ is over \$50.00. These are estimates based on our own bills and definitely depends on what you order. These are places we like or know are good from our clients. Restaurants can change in quality pretty quick so if they're not on our list they could be pretty good and ones here could go down hill with the change of a chef. With that said this is a good place to start and places we know are favored and frequented by locals.

Breakfast

[Bubba's](#) \$ - (Jackson) A good place for a hearty breakfast without breaking the bank. You will see a lot of locals lining up here. If you're on a budget or want to fit in order the working man's special. It's not on the menu.

[The Bunnery](#) \$- (Jackson) Another Jackson Hole classic! During high season there might be a line out the door so get here early or be prepared to wait. Try the Gros Ventre Slide or other locally named dish.

[Creekside Market and Deli](#) \$ (Jackson) This is the place to grab a quick burrito, breakfast sandwich or bagel and a hot cup of locally roasted coffee to get the day started. Also a great place to stock up on sandwiches, supplies and drinks before heading north into the parks.

[D.O.G](#) \$ - (Jackson) Down on Glen, or D.O.G, is the locals go to for a solid breakfast burrito. Order one up with meat or veggies and spicy or mild depending on your taste. A DOG burrito is often all you will need until dinner.

[Nora's Fish Creek Inn](#) \$ - (Wilson) A hearty breakfast in a rustic setting. Saddle up to the bar if you don't want to wait for a table. Either way enjoy a good meal surrounded by locals and tourists alike.

Pearl Street Bagels \$ – (Jackson and Wilson) This locally owned coffee house and bagel shop is a must try. With a location in both Jackson and Wilson you are never too far from a freshly brewed cup of locally roasted coffee or one of their signature bagels. The local's tip here is they don't toast their bagels so don't ask and choose from a variety of house made cream cheese flavors. If you only want a little cream cheese ask for a "schmear".

Rusty Parrot \$\$\$ – (Jackson) The Wild Sage's intimate 32-seat gathering room, with its rugged river rock fireplace, has a full view of our exhibition-style kitchen. Regional offerings feature organically grown produce, local game and meats, sustainable fish and seafood, and freshly prepared desserts. Though great for all meals this is a must try for breakfast.

Shades Cafe \$ – (Jackson) This is a favorite place for breakfast but you have to get used to a more limited menu and small space. Housed in an historic log cabin, they serve up great eggs benedict variations, burritos and sandwiches. Locally roasted coffee and friendly faces make this a good stop for a cup of joe too.

Terra Cafe \$ – (Teton Village) Situated inside Hotel Terra, this is a great go to breakfast stop before a day at Jackson Hole Mountain Resort or heading off to explore the region. A varied menu, good food and convenient location in Teton Village make this one of the main go to breakfast and lunch spots in Teton Village.

Summer Activities

Jackson Hole was recognized as an outdoor paradise by the native Americans that first explored the area thousands of years before the first white mountain men stumbled upon the valley. These lucky first inhabitants were here to hunt, fish, trap and explore the rugged terrain and enjoy the abundance of natural resources. As the early white explorers trapped, hunted and mapped the region, it didn't take long before word got out and tourism in Jackson Hole was born. Urbanites from the eastern cities made their way to this remote corner of northwest Wyoming to enjoy the impressive vistas and bounty of fish and game in the name of sport. These travelers needed guides to the area and the first trappers stepped in to fill the niche. Over time dude ranches were built to house and feed the guests in addition to roads, trails and passes through the mountains. With time newer outdoor pursuits were being realized including rafting, climbing and skiing. Today Jackson Hole is home to two of the world's most famous national parks, world class skiing, hiking, fishing, climbing, horseback riding, snowmobiling and wildlife viewing all in a place that has been carefully protected allowing guests today to enjoy the abundance experienced by the earliest explorers. This has made Jackson Hole one of the global leaders in sustainable tourism.

The easiest way to organize activities for the sake of vacation planning to Jackson Hole is by summer or winter. The spring and fall get divided into these categories depending on the specific activities and seasonality of the valley. Summer season is defined by the classic outdoor activities like fishing, hunting, horseback riding, wildlife viewing and rafting. Most of these will fall in both spring and fall but we still lump them into summer. The "summer" season typically starts on May 1 and lasts

Jackson Hole Vacation Planner

SUMMER EDITION

through October. The winter season in Jackson Hole is set by the opening and closing dates of Jackson Hole Mountain Resort, typically Thanksgiving to the first week in April. It is during this time that you can find the classic winter activities at their best like skiing, snowshoeing, snowmobiling, dog sledding, sleigh rides onto the National Elk Refuge and opportunities to find the abundant wintering wildlife of the valley.

Some activities can be enjoyed all year including photography and wildlife tours that are offered year-round; however, it is important to note that some park roads and local businesses are closed for the off seasons including most of Yellowstone National Park. It is best to check on the seasonal closure dates and ask specific questions about what is available if you are coming at any time except the middle of summer.

With all that in mind here is a list of our favorite 'must do' activities and our favorite vendors. These suggestions are not advertisements and those included didn't pay to be mentioned. These suggestions are from our personal knowledge of the companies and their staff. As mentioned above, things can change quickly from company to company so those listed could always go downhill and those not included are not necessarily bad. It is our philosophy when choosing an activity provider, the company and especially the guides can make or break a trip. Always check each company's guide page and see who they hire. The best companies will have the best guides! We also tend to lean towards local family owned companies as they will have lower annual turnover and the most knowledgeable local staff.

Hiking

Jackson Hole and Grand Teton National Park offers some of the best hiking in the region. Well maintained trails will take you off the beaten path to hidden lakes, waterfalls and lesser visited places to enjoy alone with your friends and family. The rangers at any visitor center are great assets to use when planning hikes in the area. They will have ideas, maps and current trail conditions plus weather updates. Remember that this is bear country so make sure to learn how to travel safely in bear country by making noise (especially in places with dense vegetation), hike in a group, and always carry bear spray. A lot of visitors to the area are nervous about hiking because of the bears but if you follow the basics of being 'bear aware' the chances of even seeing a bear are extremely low. Another option is to hire a guide or join a ranger lead hike offered free throughout the parks daily.

[Jackson Hole Llamas](#) Llama trekking is a great way to explore the area on foot. Jackson Hole Llamas offers both single and multi-day hikes using llamas to carry gear while accessing remote parts of the Greater Yellowstone Ecosystem. If you want to get into the backcountry for a night or two this is a great option for part of your vacation. The owners of the company, Jill and Dave, are great people and experienced professionals. We have been on two multi-day trips in Yellowstone with them and had a blast both times.

[Jackson Hole Wildlife Safaris](#) Join an experienced local guide for a private, fully customized hiking experience in Yellowstone National Park. We offer full day and multi-day lodge based hiking safaris that will put you into some of the most remote country in America! Shopping and Galleries

Jackson Hole is home to dozens of small independently owned shops, art galleries and studios. Start from town square and walk in two blocks in all directions to find some great hidden gems and carefully crafted home furnishings, fine art and clothing. Since everyone has different tastes this is just a small selection of shops and galleries that I think are worth a visit and should only serve as a starting point for your Jackson Hole shopping expedition.

[Astoria Fine Art](#) Located on the town square in beautiful Jackson Hole, Wyoming, is one of the West's premier fine art galleries. Currently featuring original works by artists, both contemporary and historical, from 20 states and 5 countries, our selection is unsurpassed in variety and quality.

[Brookover Gallery](#) Located in the heart of Jackson this gallery features some of the finest landscape photography in the west by photographer David Brookover. David is one of our favorite photographers and is an expert print maker using traditional processes to create unique, often one of a kind, prints. He is often at the gallery and extremely friendly and welcoming so stop in and see a true master.

[Horizon Fine Art](#) Located a half of a block off of the Town Square, Horizon invites you to come and experience a new and different approach to showcasing fine art. Horizon encourages both first time buyers and experienced collectors to peruse a gallery that has both international and regional art. They feature painting, photography, sculpture, jewelry, woodworking and fine furnishings. This is one of our favorite galleries in Jackson with a wide range of styles, mediums and price points and the owner is always extremely friendly.

[Images of Nature Gallery](#) Located a block north of town square, the Images of Nature Gallery features the work of famous wildlife and conservation photographer Tom Mangelsen. Tom has galleries all over the country but this is his home town gallery with a lot of the shots you will see coming from the Greater Yellowstone Area. Tom is a great guy, great artist and best of all humble. You will probably see him shooting in the parks and won't even know you are standing next to one of the most prolific photographers alive today.

[Made Jackson Hole](#) Located just off town square in Gaslight Alley, this inviting shop has a relaxed contemporary atmosphere in the heart of Jackson Hole. MADE features a unique selection of handmade goods for the house, office, gift and individual. This locally owned small business is especially known for their collection of made in Wyoming items including the ever popular glass belt buckles made by the owner of the shop.

[Grand Teton Gallery](#) Located a block west of town square on Broadway, Grand Teton Gallery offers the works of nationally and internationally known artists, photographers, and sculptors specializing in traditional and contemporary western art. We are especially fond of this Gallery for several reasons. They are friendly and welcoming to everyone, they have a great variety of work and most importantly they represent the art of both [Carrie Wild](#) (girlfriend) and [Rip Caswell](#) (close friend).

July 4th

This is probably my overall favorite holiday in Jackson Hole. If you are in Jackson over the 4th then even as the owner of an activity company I have to give you one piece of advice.....don't do any activities on the 4th in 2013! There is so much cool, fun and best of all free things to do in Jackson Hole that I have to recommend to stay in town and enjoy the festivities. Everything is family friendly and both tourists and locals alike will be out in the streets. Here is a schedule provided from the [Jackson Hole Chamber's website](#):
